

Tainted Memories

Verse 1:

I still feel your hands on my waist
Warm like the blood fresh on my face

I still feel your kiss on my lips
Tender like the bruises on my wrists

I still feel your whisper on my neck
Quiet like the secrets that I kept

I still feel the sparks from our first touch
Electric like lightning that finally struck

Chorus:

Cause you were so sweet
When you wanted to be
Wish I could bleach
The stains on our love story
You're behind bars
But you live in my dreams
I don't have peace
Just tainted memories

Verse 2:

I still miss the good times though most was bad
Romanticized like high school looking back

I still feel the love I felt for you
Hopeful like my prayers that god never listened to

I still hear the lies that you spun
Deceiving like fairy tales when I was young

I still wonder how it turned out like this
How did "I love you" become "fuck you" and I the bitch who deserved it

Chorus:

But you were so sweet
When you wanted to be
Wish I could bleach
The stains on our love story

You're behind bars
But you live in my dreams
I don't have peace
Just tainted memories

Bridge:

Like a kid singing our song
I didn't grasp the story but I still sang along
I was naive
I trusted blindly
But now I see our beautiful love story wasn't pretty at all
Your strength wasn't strong
Wasn't love that I lost
Just years that are gone
Yeah they locked you up but I'm the one without freedom

Chorus:

Yeah you were so sweet
When you wanted to be
Wish I could bleach
The stains on our love story
You're behind bars
But you live in my dreams
I don't have peace
Just tainted memories
I don't have peace
Just tainted memories
tainted memories
